

WOODEN STEAMER BURNS

Two Women Lose Lives in Fire in Boston Harbor.

Boston, June 19.—Two women lost their lives and five men were injured when the wooden passenger steamer, Governor Andrew, of the Nahant line, was burned to the water's edge at a wharf in East Boston.

The bodies, which were those of Harriet Kelley and Elizabeth McNeil, both stewardesses on the craft, were recovered by the police. The injuries to the men were not serious.

George B. Cox Case Ended.

Cincinnati, O., June 19.—Presiding Judge C. H. Kyle of the second common pleas district ruled that the two affidavits of bias and prejudice filed by Prosecutor Hunt against Judges Hunt and Dickinson in the George B. Cox case have no validity and that he is without power to act. The decision wipes the Cox case off the court records.

KNOX BEFORE COMMITTEE

Secretary Throws No Light Upon Day Portrait Voucher Case.

Washington, June 19.—Secretary of State Knox appeared before the house committee on expenditures in the state department. Secretary Knox testified concerning the so-called day portrait case. He thereupon laid before the committee the long-lost voucher for \$2,450 and other documents in the case that have mysteriously reappeared after having been missing for five years.

The documents submitted by Secretary Knox throw no definite light upon the final disposition of the \$1,600 that was paid out by the treasury on the voucher and beyond the \$850 charged by Albert Rosenthal, the Philadelphia artist, for painting the portrait of William R. Day, then secretary of state and now associate justice of the supreme court.

STEPMOTHER BOUND OVER

Ohio Woman Is Accused of Administering Poison to Girl.

Delaware, O., June 15.—Miss Merle Henkle, who, it is alleged, was given arsenic by her stepmother, Mrs. John Henkle, and who is in the case hospital here, rallied sufficiently to make another statement concerning the case, in which she further accused Mrs. Henkle.

The patient, physicians say, has only a slight chance to recover. Mrs. Henkle was held under a \$2,000 bond to await the action of the grand jury.

Seamen's Strike Spreads.

London, June 15.—The seamen's strike has spread from London, Glasgow and South Shields to Middlesbrough, Belfast, Bristol, Cardiff, Swansea, Manchester and Newcastle. Several hundred have handed in their notices, but hitherto there has been an absence of unity and enthusiasm.

CONFLICT OVER TAFT

President's Presence Desired in Two Places at Same Time.

Indianapolis Civic Organizations and Railway Men Storm Washington with Telegrams.

Indianapolis, June 19.—The civic organizations that have arranged for a "safe and sane" Fourth and have been expecting the coming of President Taft to contribute to the celebration of the day have come in conflict with the Associated Brotherhood of Railroad Men, in train service, who have prepared a demonstration at the fair grounds. Both want the presence of the president at their respective places of amusement, but both events come off at the same time and a conflict exists.

The civic organizations have a track meet at the ball park and want the president to present the medals. The railroad men will have a head-on collision of locomotives at the fair grounds and want the president to attend. Charges of admission will be made at both places, but the civic organizations say their money is to be used only to defray expenses, while the fair grounds show is being put up for private gain and that the railroad men want to make money. Both sides are storming Washington with telegrams and letters, but it is not known which side the president will decide to attend.

MORE POSTAL BANKS NAMED

Incomplete Reports Show \$400,000 on Deposit in These Institutions.

Washington, June 15.—Chicago Heights, Ill., is to have a postal savings bank July 13. It is among the fifty postoffices designated to have a depository on that date. Among the other offices selected are Granite City and Madison, Ill.; LaPorte and Whitely, Ind.; LeMars and Waverly, Ia., and Hancock and Ishpeming, Mich. Incomplete reports received at the postoffice department indicate that on June 1 the deposits in postal savings banks in the ninety-three offices then in operation were approximately \$400,000. This is regarded as a remarkable showing, in view of the fact that all the offices were in small towns.

BURNS IS INDICTED

Indiana Grand Jurors Charge Him with Kidnaping McNamara.

Indianapolis, Ind., June 19.—Detective W. J. Burns and James Hossack, a city detective of Los Angeles, Cal., were indicted on charges of kidnaping John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers. McNamara was indicted on charges of conspiracy to dynamite in connection with the Los Angeles Times building explosion.

MORE OF MAINE

Havana, June 20.—The water in the cofferdam surrounding the wreck of the battleship Maine in Havana harbor has been lowered by further pumping until it is now fifteen feet below the surface of the water in the harbor.

The work revealed the fact that the explosion did damage the midships section of the vessel. The port deck was humped up and the side of the ship beneath blown out. This may mean that the boilers were exploded by the heat of the flames which followed the main upheaval. Another theory is that gases which had been generated in the interior of the vessel sought the line of the least resistance and forced out the ship's side.

On the main deck were found the bones of two human arms and the remains of a man's foot to which part of the shoe was still clinging. These ghastly relics lay to starboard of the after turret.

In the captain's cabin was a rubber coat, a rubber stamp and sundry other small articles of the same material. They had deteriorated but little during their long immersion.

The water in the cofferdam will be held at its present level until the decks are cleared. There is slight leakage from the outside and the pumps are kept working, but the cofferdam is holding well.

FRANK G. JONES ARRAIGNED

Muskegon Financier Held for Court Under \$12,000 Bond.

Grand Rapids, Mich., June 15.—Frank G. Jones, head of the American Electric Fuse company of Muskegon, and former president of the Muskegon Chamber of Commerce, was arraigned in police court on the charge of forgery brought against him by the Old National bank of this city.

Acting as his own attorney he waived examination and was held for court under a bond of \$12,000.

SENATE GIFT TO TAFTS

Plans to Honor President and First Lady on 25th Anniversary.

Washington, June 15.—Among the gifts to President and Mrs. Taft on the celebration next Monday of the twenty-fifth anniversary of their wedding will be a magnificent silver service from the members of the senate.

All the senators placed their names on the contributing list and Senator Bacon gave rush orders to the jewellers for the costly present.

REFORMED SYNOD ADJOURNS

Church Body Will Meet Next Year in Grand Rapids, Mich.

Asbury Park, N. J., June 15.—The general synod of the Reformed Church adjourned after passing resolutions protesting against presenting the battleship Utah with a silver set on which are engraved pictures of Brigham Young and the Mormon temple and another resolution commenting President Taft for his peace treaties.

The synod will meet next year at Grand Rapids, Mich.

Alleged Heretic Loses Place.

St. Louis, Mo., June 15.—Dr. Luther Freeman, president of Morningside college, handed in his resignation to the board of trustees and it was immediately accepted. Dr. Freeman gained considerable notoriety from an alleged heretic speech which was made at Kansas City about a month ago.

LOCUSTS IN NEW YORK

Seventeen-Year Variety Play Havoc with Young Fruit Trees.

Middletown, N. Y., June 19.—Despite the fact that the state entomologist at Albany some time ago announced that the farmers and fruit growers had little to fear from the visit of the seventeen-year locusts, fruit growers in the fruit belt along the Hudson claim that their young trees are being seriously damaged if not killed by the locusts.

They show marks as if they might have been inflicted by a finely pointed cog wheel with pressure applied. In each of the cuts are three or four eggs. This condition is said to be general among young trees. Millions of locusts infest every part of Orange county and there is a continuous roar through these districts.

LABOR SLUGGER ARRAIGNED

Maurice Enright's Case Postponed for Week in Chicago.

Chicago, June 17.—Maurice Enright, alleged labor slugger, was arraigned before Municipal Judge Stewart at the Desplantes street court on charges of killing Vincent Altman and William (Dutch) Gentleman.

By agreement between Inspector Nicholas Hunt and Attorney Charles E. Erbstein the hearing was continued until next Friday. This was done to await the outcome of the coroner's inquest.

Lightning Kills Few.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at Fred Wenzler's.

COOKE GAVE PACKAGES OF BIG 4 MONEY

MRS. FORD ADMITS RECEIVING \$22,000 FROM MAN ON TRIAL IN RAILWAY GRAFT CASE.

STARTLING TESTIMONY

Trial On At Cincinnati Reveals Bank Methods Of Big Corporation Now Being Investigated.

Cincinnati, O., June 15.—In the trial of Edgar S. Cooke, Mrs. Jeannette Ford was called to the stand following Charles L. Warriner.

Before she had testified more than a few minutes she startled the courtroom by declaring that Cooke had given her \$22,000. She also revealed her relations with the defendant, so far as the judge and the attorneys would permit. The money, Mrs. Ford testified, was in packages.

"Cooke would visit me at my flat two or three times a week," she said. "Each time he came he brought packages, which I concealed in a trunk. Later I went to New York, engaged a safety deposit box at the Bankers' Safe Deposit company in Wall street and put the packages in it."

"Cooke and I went to New York in September, 1901. We went to the safety deposit vaults and opened the packages and counted the money. It came to \$22,000, all in \$10, \$20, \$50 and \$100 bills."

"While you were in New York did you have any talk as to where this money came from?" she was asked.

"Yes," Cooke said it came from the Big Four," was the reply. "Cooke explained how and why he got it. He said other men were getting money, too."

EXPLORING THE MAINE

As Water Is Lowered Examination of Afterdeck Is Continued.

Havana, June 19.—General Bixby ordered the pumping at the wreck of the Maine resumed and the water was lowered to 11½ feet below the level of the water outside the cofferdam. The work of cleaning off the afterdeck was continued.

On the starboard side of the afterdeck there was found an ammunition box which was cleaned and opened with difficulty. Its contents included rifle cartridges in dips and knife bayonets. The bayonets showed most startlingly the action of salt water on steel blades and brass hilts. The electricity generated had reduced the steel to a shapeless mass.

LARGE SUM FOR MISSIONS

United Norwegian Lutheran Church of America Collects \$142,733.

St. Paul, Minn., June 19.—According to the report of the treasurer of missions, submitted to the annual convention of the United Norwegian Lutheran Church of America, \$142,733.17 has been contributed by this body during the last year for work in the home and foreign fields.

The foreign missionary statistics showed the church body has ten chief stations, five of which are on the island of Madagascar and five in China. In addition to this there are seventy-three substations, making a total of eighty-three foreign mission stations controlled by this church.

LONG-DISTANCE ASSAULT

Current Turned On Wire Connected with Faucet by Enemy.

Newark, N. J., June 19.—James M. Finnegan, employee of an electric company at Harrison, is under arrest charged with a long-distance assault by electricity upon Alfred Van Riper, a fellow worker.

Van Riper was knocked down by an electric shock when he touched a brass water faucet and has been in a hospital ever since. He says that the faucet was connected with a wire and that Finnegan with whom he had a quarrel previously, turned on the current when he started to wash his hands at the faucet.

Held as Wife Slayer.

White Plains, N. Y., June 15.—William Simon, engineer on the New York Central, is under arrest here pending an investigation of the alleged murder of his wife, who was found dead in bed, a towel and pillowcase bound around her neck.

Prince to be Midshipman.

London, June 15.—It is stated that the Prince of Wales will follow in his father's footsteps and will serve as a midshipman in the navy after the coronation ceremonies next week.

Middle Aged and Elderly People

Use Foley Kidney Pills for quick and permanent results in all cases of kidney and bladder troubles, and for painful and annoying irregularities. For Sale by All Druggists.

LAY DOWN ARMS

El Paso, June 20.—There is likely to be more fighting at Casas Grandes. The socialists and Magonistas in Chihuahua are not so tractable as they are in Lower California, where they have agreed to lay down their arms.

Sunday a band of Magonistas entered the town, which was then unguarded, and took possession. They removed the jefe politico, Domicilio Ponce, and set up a government of their own. Information to this effect was sent to General Blanco and he began mobilizing a force to send to Casas Grandes. A special train of six cars was obtained from the Mexico Northwestern railroad and every car filled. About 300 well equipped men made the trip under the command of Jose Cerecedo and arrived safely in Nueva Casas Grandes, but no reports of any fighting have reached Juarez yet and it is barely probable that the Magonistas will withdraw.

The number of men in the Magonista command has not been reported but there is to be no campaign against the Magonistas in Lower California for the present and the troops which were to have left Juarez under the command of General B. J. Viljoen will stay here. General Viljoen received the following telegram from Francisco I. Madero: "According to official advice the Magonistas have agreed to lay down their arms. For this reason I request that you do not mobilize your troops for Lower California without further orders."

General Viljoen has received 100 volunteers in Juarez and Colonel Cabral was awaiting his arrival at Nogales. The latter telegraphed Viljoen Sunday night that he had 300 men ready to march to Lower California and he was merely awaiting the arrival of Viljoen.

News was received in Douglas, Ariz., by Judge D. A. Richardson from one of the leading business men of Cananea to the effect that a wholesale butchery was perpetrated by the federal troops at that place. When the revolution first started sixty rebel sympathizers were thrown into prison at Cananea. When Colonel Juan Cabral and his rebels entered the city and took possession, his first act was to proceed to the jail with a view to liberating the political prisoners. He found that they were not there. A Japanese grave digger said he had been ordered by the federals to dig some extra deep graves. The insurrection forces exhumed the bodies and found from three to fifteen in each grave.

START SALVATION NAVY

First Boat to be Dedicated in New York Wednesday.

New York, June 20.—A new departure of the Salvation Army in the United States will be witnessed at noon Wednesday when Commander Eva Booth, leader of the army in America, will dedicate the first boat of the Salvation navy at the battery.

The yacht, which is the gift of the architect, Bradford Gilbert, will after the service of dedication, start on a cruise along the Atlantic coast. It will stop at cities and towns for open air services and wharf meetings and to distribute Salvation Army leaflets. Major Erickson, a former sailor, will command a small crew, chiefly of Salvationists.

VANDERBILT LEAPS IN RIVER

Launch Fire Causes Quick Action by Wealthy Young Man.

Red Top, Conn., June 17.—Harold S. Vanderbilt, son of William K. Vanderbilt, narrowly escaped death when his launch Vagrant caught fire. Vanderbilt was on the boat when the flames burst forth and was forced to leap into the Thames river and swim ashore.

Before he could get into the water, however, his hair and eye brows were burned and his clothes were mass of flames. The water saved his life. The boat floated away and sank.

Saved His Wife's Life.

"My Wife would have been in her grave today" writes O. H. Brown of Muscadine Ala. "If it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in a short time." Infallible for coughs and colds, it's the most reliable remedy on earth for desperate lung trouble, hemorrhages, lagrippe, asthma, hay fever, croup and whooping cough. 50c, \$1.00. Trial bottle free. Guaranteed by Fred Wenzler.

Plans Vast Panama Explosions.

Washington, June 17.—The canal diggers on the isthmus expect to explode 10,000,000 pounds of dynamite during the next year in excavation work. The canal commission has just placed the contract for this vast quantity. Prices ranged from \$12.25 to \$13.82 a hundred pounds.

Fire on Liner.

New York, June 17.—The big Hamburg-American liner President Lincoln caught fire at her pier. Burning jute caused \$200 damage.

A Terrible Blunder.

To neglect liver trouble. Never do it. Take Dr. King's New Life Pills on the first sign of constipation, biliousness or inactive bowels and prevent violent indigestion, jaundice or gall stones. They regulate liver, stomach and bowels and build up your health. Only 25c. at Fred Wenzler's.

CLAN OF PRES. TAFT IS NOW GATHERING

THEY ARE ALL COMING TO WHITE HOUSE FOR SILVER WEDDING OF OUR PRESIDENT.

SILVER WEDDING

"Aunt Delia" Is Coming to "Will's" Anniversary and Some Others of the Very Nicest People They Know to Be There.

Washington, June 17.—President Taft's Aunt Delia, more formally known as Mrs. Delia C. Torrey, is on her way to Washington.

She is coming to the silver wedding anniversary of her nephew "Will" and her arrival will complete the reunion of the Taft family for the celebration. "Aunt Delia" for a long time feared that the journey from her home in Milbury, Mass., to Washington would be too much of an undertaking for her. The president, however, was insistent, as she is his favorite aunt, her apple pies alone having won for her a substantial place in his heart. To make Aunt Delia's presence certain the president sent his son, Robert, to Milbury and he is accompanying her to Washington.

Soon the entire Taft family, young people and grown-ups, will be at the White House. Horace Taft, the president's younger brother, who lives in New England, will also arrive here today and Henry W. Taft either tonight or early Sunday.

One of the interesting features of the silver wedding is the invitations issued to the members of the families of former presidents. With the single exception of the McKineys some members of the families of every administration back to the days of Lincoln have been invited. None of the members of the cabinet of President McKinley who were in the White House during his administration is now living. It is hoped, however, that some close relative of President McKinley may be able to attend the anniversary.

Mexican Export Duty Removed.

San Antonio, Tex., June 17.—The specific export duty of \$5 Mexican per head imposed on cattle by the Mexican insurrection government, has been removed. This is a relief to cattle shippers who contracted for delivery depending upon their ranches in Mexico.

Prison for Swindlers.

Montreal, June 17.—Charles D. Sheldon, convicted of misappropriating the funds of clients, was sentenced to five years in prison.

A Peek Into His Pocket.

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y. always carries. "I have never had a cut, wound, bruise, or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever-sores, skin eruptions, eczema, corns and piles. 25c. at Fred Wenzler's.
